

DYNA GREEN™

MAGNESIUM Liquid Foliar Spray

PRODUCT INFORMATION

Dyna Green Magnesium is a liquid foliar formulation designed to correct and prevent magnesium deficiencies in most crops. If added to the spray tank first, it will aid in lowering the water pH. A jar test to check the compatibilities of unfamiliar or new combinations should be performed prior to mixing and application. The addition of a non-ionic surfactant will aid in surface coverage which will help leaf absorption.

DIRECTIONS FOR USE

Dyna Green Magnesium should be applied at 1 to 2 quarts per application in 100 gallons of water per acre. **Aerial application:** 1 quart per acre in 5 to 10 gallons of water per acre.
