

DYNA GREEN™

MANGANESE Liquid Foliar Spray

PRODUCT INFORMATION

Dyna Green Manganese is a liquid foliar formulation designed to correct and prevent manganese deficiencies in most crops. If added to the spray tank first, it will aid in lowering the water pH. A jar test to check the compatibility- ties of new or unfamiliar combinations should be performed prior to mixing and application. The addition of a non-ionic surfactant and / or urea nitrogen will aid in uptake.

Citrus and Fruit Trees: Use 1 to 4 quarts per acre per application in 100 gallons of water. Repeat applications as needed.
