

Suitable extinguishing media.	Non-combustible product. Use extinguishing measures that are appropriate to local circumstances and surrounding environment.
Unsuitable extinguishing media	None
Specific hazards arising from the chemical.	In case of fire don't breathe dust or vapors coming from combustion material. Dangerous decomposition products are nitrogen (N) oxides and carbon oxides.
Special protective equipment and precautions for fire-fighters.	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus.

6. Accidental Release Measures

Environmental precautions.	Avoid contamination of river and sewerage. Inform the appropriate authorities in case of river contamination. Avoid product dispersion by rain or wind.
Personal precautions, protective equipment, and emergency procedures.	If necessary, use appropriate protective equipment. Avoid contamination with released material. Don't breathe the dust. Send out personnel not necessary for the clean-up.
Methods and materials for containment and cleaning up.	Scoop up the material released by absorbent material and put it into an appropriate labelled waste container. The absorbent material and product can be used as a fertilizer on a farm. After cleaning flush away traces with water.

7. Handling and Storage

Advice for safe handling.	Avoid dust formation. Otherwise, no special precautions required
Advice on protection against fire and explosion	The product is neither flammable nor explosive. No special protective measures against fire required.
Conditions for safe storage, including any incompatibilities.	Keep in a dry place. No special restrictions on storage with other products. Stable under recommended storage conditions.

8. Exposure Controls/Personal Protection

OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit.	NA
Technical precautionary actions	Avoid dust/vapors formation. Provide adequate ventilation.
Respiratory protection	No special protective equipment required.
Eyes protection	No special protective equipment required.
Skin protection	No special protective equipment required.
Hands protection	Not required under normal use.

9. Physical and Chemical Properties

Appearance (physical state, color, etc.):	Green/brown liquid	Upper/lower flammability or explosive limits:	NA
Odor:	Vegetative	Vapor pressure:	Unknown
Odor threshold:	-	Vapor density:	Unknown
pH (1:5 dilution):	3.2-4.5	Relative density:	9.9-10.2 lbs/gal (1.19-1.22 Kg/L)
Melting point/freezing point:	-	Solubility:	Soluble in water
Initial boiling point and boiling range:	-	Partition coefficient: n-octanol/water:	Unknown
Flash point:	NA	Auto-ignition temperature:	NA
Evaporation rate:	-	Decomposition temperature:	NA
Flammability (solid, gas):	Not flammable	Viscosity:	Unknown

10. Stability and Reactivity

Reactivity	Stable
Chemical stability:	The product is stable under recommended storage and handling conditions.
Incompatible materials:	None known
Possibility of hazardous reactions	No known hazardous reactions known under conditions of normal use
Hazardous decomposition products.	No decomposition if stored and applied as directed.
Conditions to avoid	None known

11. Toxicological Information

Dangerous effects on human health: within the current knowledge of the supplier and in the concentrations recommended by the Company, the product is not hazardous to human health or environment.

At the moment, there are no known significant effects regarding carcinogenicity, mutagenicity, teratogenicity, negative fertility effects, or other dangerous effects on human health.

12. Ecological Information

Ecotoxicity (aquatic and terrestrial, where available):	This product is not dangerous to the environment if used as recommended by the supplier. Use only if necessary.
Persistence and degradability:	Biodegradable
Bioaccumulative potential:	None
Mobility in soil:	NA
Other adverse effects	None known

13. Disposal Considerations

Within the present knowledge of the Company, the product is not considered as hazardous waste. Dispose the product and the packaging according to all applicable local and national laws.

14. Transport Information

The product is not classified as hazardous material according to the UN Orange Book. International transport codes (ADR, RID, IMDG, ADN) are not necessary.

15. Regulatory Information

None required.

16. Other Information

Version Number	Version 3.1
Date of Last Revision:	Oct. 3, 2017
SDS by Italtollina, USA. Inc.	

IMPORTANT NOTICE:

The data and information contained in this safety data sheet are based on our knowledge at the date of issue. The information of this SDS concerns only aspects about use, handling and storage of the product. The supplier does not assume any liability whatsoever for the accuracy or completeness of the information contained in this sheet. Final determination and use of suitability of product is completely the responsibility of the user. All chemical products may present unknown hazards and must be used with caution. The supplier does not guarantee that the hazards described in this safety data sheet are the only hazards that exist for this product. The supplier does not guarantee that this SDS contains all possible safety measures; in particular conditions it may be necessary to add some additional safety measures.
