

PRODUCT INFORMATION

DynaZone N30 is a liquid foliar fertilizer that contains urea-triazone, a unique liquid nitrogen source that is safe when used as directed. **DynaZone N30** will increase nitrogen absorption, translocation, and remobilization when used on turf grasses, ornamentals and other crops. The use of this product will reduce costly losses of nitrogen due to volatilization and leaching. It may be applied in turf areas subject to heavy traffic, such as greens, tees and athletic fields, and will provide controlled release nitrogen for a more uniform color and growth pattern. **DynaZone N30** is compatible with most agrochemicals available, including pesticides, crop oils and other nutritional sprays.

CROP RECOMMENDATIONS

DynaZone N30 may be used to correct and prevent nitrogen deficiencies and maximize yields on the following crops: alfalfa, almonds, avocados, apples, barley, beans, broccoli, cabbage, cauliflower, carrots, celery, citrus, corn, cotton, cucumbers, eggplant, grapes, lettuce, milo, melons, rice, pears, pecans, peppers, potatoes, peanuts, strawberries, tomatoes, turf grasses, turnip, and wheat.

Lawns, Turf and Sod: Apply 6 to 36 ounces of **DynaZone N30** per 1000 sq. ft. in enough water to allow for thorough coverage, usually 2-12 gallons.

Tees: Apply 9 to 16 ounces of **DynaZone N30** in 3 to 5 gallons of the total spray solution per 1000 sq. ft. every 7 to 10 days.

Turf: Apply 9 to 16 ounces of **DynaZone N30** in 3 to 5 gallons of the total spray solution per 1000 sq. ft. every 7 to 10 days.

Citrus (including oranges, grapefruit, tangerines, limes and lemons): Apply 1-2 gallon(s) per acre in enough water to allow for thorough coverage. To achieve maximum results multiple applications beginning in the early spring and continuing through summer oil may be necessary.

Vegetables (including tomato, pepper, eggplant, collards, broccoli, cabbage, sweet corn, cucumber, squash, cantaloupe and watermelon): Apply 2-4 quarts per acre in enough water to allow for thorough coverage. Multiple applications may be necessary for best results.

Row Crops (including cotton, corn, milo, beans and wheat): Apply 2-4 quarts per acre in enough water to allow for thorough coverage.

Aerial Application: Use recommended rate in 5-15 gallons of water per acre.

DIRECTIONS FOR USE

DynaZone N30 may be applied as an undiluted spray or mixed with water where spray equipment requires more volume. Avoid high spray volumes (generally over 25 gallons per acre) where possible because of excessive run-off.

DynaZone N30 has a pH of 8.7 and could keep spray water pH at or above 7. When adding pHyllo® or other acidifying agents to your tank, apply within 6 hours as the stability of the **DynaZone N30** could be affected.

PRECAUTIONS

1. **DynaZone N30** is compatible with most crop protection chemicals, micronutrients and growth regulators.
2. An exception is Sevin 80 Sprayable.
3. A jar compatibility test to check the compatibility of new or unfamiliar combinations should be performed prior to mixing and application.
4. Avoid containers, piping or fittings made of copper-containing alloys or galvanized metal.

CHEMICAL DYNAMICS

4206 Business Lane | Plant City, FL 33566

813-752-4950 | Weight per gallon: 10.40 lbs | F910

Product is not classified as hazardous under 29 CFR 1910.1200. Keep away from children. Do not drink. Do not contaminate feed, seed or water supplies. Read SDS

Prevention: Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear chemical splash proof goggles and chemical resistant gloves.

Response: Get medical attention/advice if you feel unwell.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

If swallowed: Rinse mouth, Do NOT induce vomiting. Drink 2 glasses of water.

If on skin (or hair): Rinse skin with water/shower. Wash contaminated clothing separate from other laundry before reuse. If skin irritation occurs, get medical attention.

If inhaled: Remove person to fresh air and keep comfortable for breathing.

Storage: Keep container tightly closed when not in use. Store above 42°F.

Disposal: Dispose of contents/containers in accordance with local/regional/national regulations (See Section 13 of SDS). Containers may be triple rinsed and offered for recycling.

CONDITIONS OF SALE

Seller warrants that products will be labeled as required under state and federal law and that they conform to the label description. Any nonconformance must be reported in writing to Seller within thirty (30) days after purchase as a prerequisite to maintaining any claim against Seller. Buyer agrees to inspect all products purchased immediately upon delivery.

THE SELLER'S LIABILITY ON THIS WARRANTY IS LIMITED IN AMOUNT TO THE PURCHASE PRICE OF THE PRODUCT. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THIS STATEMENT.
