

DYNA GREENTM

M Z F LIQUID SPRAY

Information

Dyna Green MZF is a liquid foliar formulation designed for maximum uptake of zinc, manganese and iron and should correct and prevent deficiencies in most citrus. If added to the spray tank first, it will aid in lowering water pH. Check the compatibilities of untried chemical mixes. The addition of a non-ionic surfactant and/or urea nitrogen will aid in uptake.

Directions For Use

Dyna Green MZF should be applied at 2-3 quarts per acre in enough water to cover. Aerial application: 1-2 quarts per acre in a minimum of 5 gallons of water.
